## “Onsite technical service from”

**A comprehensive collection of network planning, installation and support solutions delivered by our certified IT support specialists and available to you for a single, affordable monthly fee. Beyond the remote diagnostics that most other IT support providers offer after an incident has occurred, Our Business solutions delivers proactive onsite service and quarterly health checkups for no additional charge to prevent issues from arising in the first place.**

### All Plans Include:

**In addition to the comprehensive suite of services and solutions included with both of our Onsite Technical Service plans, Virtual Private Network (VPN) setup, to allow your employees and/or customers to securely connect to your internal network, using any Internet connection.**

### Wireless network setup.

**Remote Data Backup with generous standard capacities per plan, and the flexibility to affordably add more backup capacity as needed**

### Services Designed to Get You Started and Keep You Running

**Following a systematic approach to meeting your communications infrastructure and business needs, Our Business Solutions Onsite Technical Service will optimize your PCs and network for peak performance, prepare your environment for simplified support and help ensure more reliable operations from day one forward.**

### Onsite Customer Consultation and Survey.

**After visiting your location to analyze your network and log your equipment and configuration information, our skilled technicians will determine your needs for the installation phase and provide recommendations for improvements.**

**We offer several computer & Networking-related services to differentiate ourselves from the competition.**

**Why bother with the hassle of disassembling your PC and hauling it to a repair shop every time it has problems? When viruses and spy ware issues surface or other computer headaches arise, you can rely on our certified technicians to deliver prompt, courteous on-site expert PC service. Whether you want to improve your computer's performance with an upgrade, get those annoying ad ware pop-ups under control, install a wireless network, or just learn how to use your PC more effectively, we can help! The computer industry requires a great deal of experience. Installing new systems and servicing existing systems are a significant part of our business. We hope to be able to handle all your computer needs.**

**We specialize in providing computer and networking support that is critical for day-to-day operations for small to medium-sized businesses to succeed in today's world. As your "Part-Time IT Department," Our Company's On-call service delivers all your computer and networking services that are convenient and reliable. Our commitment to world-class customer service has made us the most respected on-site computer repair and support provider. Computer Security Computer (viruses, spyware and other malware can cause devastation to a computer. If your PC is running sluggishly, then you may already be infected.**

### Specialties:

**We establish long-term customer partnerships by delivering the most comprehensive services available. Our goal is to achieve customer satisfaction through excellence in design, supply chain management, service, and repair solutions. Through our culture, our drive, and the expertise of each individual employee, we are uniquely positioned to provide best-in-class services to a global customer base.**

### HIPAA Regulations

**HIPPA regulations state: "The final Security Rule made the use of encryption an addressable implementation specification. See 45 CFR § 164.312(a)(2)(iv) and (e)(2)(ii). The encryption implementation specification is addressable, and must therefore be implemented if, after a risk assessment, the entity has determined that the specification is a reasonable and appropriate safeguard in its risk management of the confidentiality, integrity, and availability of e-PHI. If the entity decides that the addressable implementation specification is not reasonable and appropriate, it must document that determination and implement an equivalent alternative measure, presuming that the alternative is reasonable and appropriate. If the standard can otherwise be met, the covered entity! may choose to not implement the implementation specification or any equivalent alternative measure and document the rationale for this decision." <http://www.hhs.gov>**
